Cortex™ series of solar modules by Omnis Power are very powerful which provide the world-class performance. The Cells and raw materials structure design ensures the maximized of sunlight and enhances the reliability. Cortex™ includes the most leading technologies of solar cells like PERC,N type Multiple busbar, and bifacial. After years of effort, Cortex is able to increase customer's value beyond the efficiency, the performance and durability under real conditions makes our customers succeed no matter in residential or commercial applications.

Highlight

Higher Efficiency

The leading high efficiency of solar cells ensures the high output power which making it more sufficient in limited space.

Lower Power Degradation

Ensured PID resistance through cell process and module material control to help harvest more. Cortex is guaranteed ONLY 0.55% annual power degradation is 25 years.

Warranty Extended Up To 20 Years

Cortex can provide additional 5 years warranty beside the basic 15 years which is in high level of the whole industry.

Durability In Extreme Conditions

Cortex is passed the test by salt mist, ammonia and mechanical loads up to 5400pa positive.
